(PATENT)

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Letters Patent of:
Yun Y. Choi

Patent No.: 6,956,440

Issued: October 18, 2005

For: PLL HAVING A CONTROLLER FOR
DIVIDING VALUES OF A VCO

*Certificate
of Correction
AUG 02 2006*

REQUEST FOR CERTIFICATE OF CORRECTION PURSUANT TO 37 CFR 1.322

Attention: Certificate of Correction Branch
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Upon reviewing the above-identified patent, Patentee noted a typographical error which should be corrected.

In the Abstract:

At the cover page, Column 2, please replace the abstract to read as follows:

--A PLL can operate linearly at various frequencies by overlapping several VCOs and using a control circuit for controlling the several VCOs to select a VCO at a desired frequency. Accordingly, the PLL can automatically pre-compensate the frequency by using a control signal used in the PLL. As a result, a separate frequency compensation signal is not required. The PLL can be ~~configure~~ configured on a single chip when the VCO is contained within the PLL.--

The error was not in the application as filed by applicant; accordingly no fee is required.

AUG 2 2006

Transmitted herewith is a proposed Certificate of Correction effecting such amendment. Patentee respectfully solicits the granting of the requested Certificate of Correction.

Dated: July 25, 2006

Respectfully submitted,

By 
Anthony G. Sitko
